CARDINAL NEWMAN CATHOLIC PRIMARY SCHOOL

SPRING TERM 2023

Whether coding is new, or an identified passion, Code Camp will let your child unleash their creativity in a fun, collaborative and supportive environment. All attendees will build their own apps, learn foundational coding principles and have ongoing access to the Code Camp World platform to keep coding long after the course has concluded.

Code Camp is now a global movement, having taught over 120,000 children how to code in the past 9 years. We focus on problem-solving, creating apps and improving computational thinking in a fun and engaging way, so your child will be ready to take on the digital world of the future.

Next term we will be learning new concepts and building 2 brand new projects that even experienced Code Campers won't have had access to before!

Key details:

Spring Term 2023
Wednesdays 3:15pm-4:15pm
Wednesday 18th January - Wednesday 22nd March (8 sessions)
KS2 club for children in years 3-6
