What is meant by a scaled score?

- It is planned that 100 will always represent the 'national standard'.
- Each pupil's raw test score will therefore be converted into a score on the scale, either at, above or below 100.
- A child who achieves the 'national standard' (a score of 100) will be judged to have demonstrated sufficient knowledge in the areas assessed by the tests.
- With your child's report in July, each pupil will receive:
 - A scaled score in each tested subject.
 - Confirmation of whether or not they achieved the national standard.
